Tiers are determined by program size, which is based on the number of activities or learner interactions, whichever is greater, over the past three years. The ACCME used data that providers entered into the Program and Activity Reporting System (PARS) for the 2020–2022 reporting years to assign tiers for the 2024 and 2025 annual accreditation fees.

Submission of Fees

Providers are required to submit payment of all accreditation fees prior to the MSSNY consideration of an Accreditation recommendation. Failure to do so will result in a one-cycle deferral of the Accreditation recommendation. Failure to do so within that one-cycle deferral will result in non-accreditation decision at the next scheduled CME Committee meeting.

NOTE: This section pertains to MSSNY jointly provided activities. Joint providership allows an organization that is not accredited to provide CME to partner with an accredited CME provider such as MSSNY to plan and implement accredited CME.
